Date: JAN-23-2007

OFFICE OF THE ASSOC. VICE PRES. FOR RESEARCH
P.O. BOX 7426
AUSTIN, TX 78713

3.75 (e)

HOUSING FACILITIES, GENERAL.

(e) Storage. Supplies of food and bedding must be stored in a manner that protects the supplies from spoilage, contamination, and vermin infestation. The supplies must be stored off the floor and away from the walls, to allow cleaning underneath and around the supplies. Food requiring refrigeration must be stored accordingly, and all food must be stored in a manner that prevents contamination and deterioration of its nutritive value. Only the food and bedding currently being used may be kept in animal areas, and when not in actual use, open food and bedding supplies must be kept in leakproof containers with tightly fitting lids to prevent spoilage and contamination. Substances that are toxic to the nonhuman primates but that are required for normal husbandry practices must not be stored in food storage and preparation areas, but may be stored in cabinets in the animal areas.

An open bag of marshmallows and other food items used for enrichment are present on a shelf in a room housing non human primates. Contamination of these items may occur while cleaning the room . All open bags of food shall be placed in containers with lids to prevent contamination .
